

## **Moblo Fleming, P.C.**

In response to Governor Whitmer's Executive Order relating to the COVID- 19 state of emergency, our office has transitioned our employees to work remotely from the safety of their own homes. While our office is closed to the public to prevent any social interaction, we will have one on-site employee each weekday that will answer phone calls and process any work that cannot be electronically filed. Rest assured we are able to fully function and ready to handle all our clients' needs.
